The innovative concept behind the SmartPro Multiuse Neckform is its removable top portion, allowing for the use of various specialized inserts for the display

**These Neckforms
are available with
Multiple inserts that
fit into the “Cookie”
spot in the top of the
neck.**

How do I Best use these necks?

- Utilize these special neckforms to show your customers ideas for multiple purchases.
- Show matching pieces on a single display
- Use the signage insert to provide pricing or other important selling details
- Plain insert is included when you want to use the neckform without a different piece

What are the actual sizes of the Neckforms?

- Box Brokers offers the SmartPro Multiuse Neckform in 2 sizes
 - 6" tall and 9" tall
- Both sizes are sold with packets of 5 or 10 inserts
- These inserts include Ring, Earring, Clip, Utility, or Plain

This combination ring and earring cookie insert uses less showcase space and is more cost-efficient compared to using three separate elements

Current Pricing
